Dear Parents

Welcome to the start of the Summer Term, I hope you and your families are all well.

To mark the start of term, teachers have now set up their Google Classrooms. This is where teachers will post learning tasks for the children to complete. Some tasks will be daily, others will be more project based and take a few days. Depending on your circumstances, please aim to complete work daily. Having said that, you know how your child works best and this may not be feasible for some children.

If you do not have your child's Gmail address and password yet, please contact your child's class teacher who will be able to provide them for you.

When you login today, you will see a very special video that we have created to lift everyone and make you laugh, but hopefully not too much!! Thank you very much to Miss Foord for pulling everything together and once again letting your creative genius shine through.

Good luck with Google Classroom everyone and enjoy the video!

Best wishes

Hayley Sharp
